Global Sugar Scenario

Stock Consumption Ratio & ICE Raw Sugar Prices

➤Global raw sugar prices witnessed pressure due to expectation of SY 2012 to be a surplus year.

➤ Global supply is expected to outpace demand by about 4.21 MnT, on account of large production harvests in India, the EU, Thailand and the Russian Federation.

Regulatory Updates

Decontrol of Sugar

 Prime minister has constituted an Expert Committee under chairmanship of Dr. C. Rangarajan to look into all the issues of deregulation of sugar sector. With this significant forward movement on deregulation is expected.

Other Issues

- During the first week of May 2012, The Govt has relaxed quantity restrictions on exports of sugar under OGL, which is likely to ease up stocks built up in the country.
- To bring down the volatility in sugar prices, Monthly Release quota from the Government on non levy sugar has been replaced with Quarterly release with effect from 01.04.2012.
- Indian Sugar output as on 15th April, 2012, stood at 24.3 MnT since October 2011, which is 13% higher from the corresponding period last year. Source ISMA
- Implemented in the year 2010, The Zero Import duty on sugar has been extended by the Government for another three months, this was and was supposed to be concluded on 30th March 2012.
