About Dalmia Bharat Sugar and Industries Limited:

Dalmia Bharat Sugar and Industries Limited has been one of the fastest-growing success stories in the Indian sugar industry. The company's foray into the sugar business was made in the mid-90s and the first unit of 2500 TCD was set up at Ramgarh, a village in the Sitapur district of Uttar Pradesh in 1994. During 2006-2007, the company embarked on a major growth path by setting up two greenfield plants at Jawaharpur (Dist. Sitapur, U.P.) and Nigohi (Dist. Shahjahanpur, U.P.) and expanding existing facilities at the Ramgarh unit. The total cane crushing capacity of the company is now 43200 TCD which makes it one of the leading sugar producers in the country. It is now a fully integrated player with 138 MW of co-generation capacity and a distillery of 850 KLPD along with incineration boilers. It also has facilities for processing of raw sugar. These state-of-the-art facilities serve as a role model for the sugar industry since the company has achieved excellence in plant operational metrics and holds a technological leadership position in the industry.
