DIVIDEND DISTRIBUTION POLICY

Preface

Regulation 43 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“**Listing Regulations**”) mandates the top one thousand listed entities based on market capitalization to formulate a Dividend Distribution policy to be disclosed in their annual reports and on their website. This Dividend Distribution Policy is accordingly framed.

1. Dividend shall be declared and paid only out of current year’s post tax profits, after:
 - (a) setting off of losses of all earlier years;
 - (b) excluding gains of a capital nature, such as profits on sale of immovable property, capital profits on sale of investments and profits of an extraordinary nature credited to the profit and loss account;
 - (c) arrears of depreciation, if any, in accordance with the Company’s policy on depreciation.

2. In case of loss or inadequacy of profits, dividends can also be paid out of the carried forward profit of the earlier financial year(s) and/or realised Reserves as above and shall be restricted to such amount as may be permitted by the Companies Act, 2013 and statutory modification or re-enactment or substitution thereof.

However, declaring dividends out of Reserves should be exercised by the Board as the last resort.

3. The amount of dividend shall not be paid in lieu of a bonus or for inducing subscriptions to rights issue of shares or debentures leading to an expansion of the capital base.

4. As per listing requirements, Members who have been allotted shares during any financial year (but before the record date fixed by the Board for declaration of dividend), shall be entitled to payment of dividend paid out after such record date, even though they were not Members during the financial year in respect of which the dividend is being declared and paid. For the new allottees, dividend shall be paid for the full year and not on pari-passu basis from the date of allotment *except where the allotment is after the record date fixed for Interim/Final dividend.*
5. The amount of dividend to be recommended and declared by the Board, shall not normally exceed the dividend pay-out ratio to be determined by the Board once every three years. This shall normally be around 10% - 35% of the Net Profits after tax. Such percentage shall be determined on the basis of the dividends declared by Companies having a similar turnover or competitor companies.
6. For the aforesaid purposes, the Board shall consider the following parameters:
 - (a) the fund requirements for future projects or proposals for modernization, expansion in capacities, de-bottlenecking projects and major repair and renovation expenses;
 - (b) positive cash flows, after dividend payout;
 - (c) likelihood of crystallization of any contingent liability, if any;
 - (d) requirements of contingency funds;
 - (e) funds requirements for making strategic investments, acquisition of brands, etc.
 - (f) proposed sale of businesses.
7. Interim dividends may be declared by the Board based on review of profits earned during the year under consideration, till date.
8. The Board, at its discretion, may pay/recommend special dividend on specific occasions, such as Silver/Gold/Platinum Jubilee or Centenary Celebrations, etc.
9. Final dividend shall be recommended/ declared once a year after approval of the Annual Financial Statements by the Board of Directors/Shareholders.
